

SuburbanGeriatrics

Adding Life to Years

Suburban Geriatrics is a primary care physician practice, specializing in working with the older adult population. We make receiving care easy by coming directly to you. You can get personalized high quality healthcare in the comfort of your home.

As a Suburban Geriatrics patient, you can expect:

- ✓ A clinical team member visiting the community 2 - 3 times each week.
- ✓ To be seen every 2 to 3 months for routine wellness visits. To be seen for sick visits as needed.
- ✓ Social work/case management support.
- ✓ Post hospitalization and rehab discharge follow-up.

Care When You Need It

Clinicians are available 24/7 so you can have medical concerns addressed at any time.

A Team Approach

Your Suburban Geriatrics team of a physician, physician assistant or nurse practitioner, and a social worker, collaborate with the community wellness team to care for your overall wellbeing.
